Challan Transactions

Offline payments consists of cheque/DD, NEFT and cash payments at bank counters. It is still prevalent in this India, mostly in government and compulsive sectors. Its another use case is for very high ticket size payments, where customers prefer NEFT/RTGS.

This payment option is mainly used by government agencies and educational & housing societies.

PayU is integrated with IndusInd Bank for Challan payments.

On-boarding

Merchants need to be on-boarded on the banks end to generate a client code which is then used for generating challans.

Types of Challan

a. IndusInd Bank offers following types of challan;
   1. Indus Challan - NEFT/RTGS
   2. Indus Challan – IMPS
